- Available features and additional services may vary by device, software, or service provider.
- Applications and their functions may vary based on the country, region, software or hardware specifications. Ronlight is not liable for performance issues caused by third-party applications.

Understand Your Phone

Charging the Battery

Before using the device for the first time, we recommend you to charge the battery for a minimum of 4 hours。

◐	You can charge the device with a travel adapter or connecting the device to a PC via a USB cable.

Home Screen

(1) Read your notifications

When you see a notification in the status bar, touch the bar and slide your finger down the screen to open the list of notifications displayed in the sliding window.

Ongoing notifications report activities such as call forwarding ON, current call status, song playing.

Notifications report the arrival of new messages, calendar events, and alarms. You can clear notifications list by selecting 'Clear' notifications at the top of the notifications window.

To open the message, reminder or other notification, you can touch the items. To close the notifications window, slide your finger up the screen.

(2) Create Home screen shortcuts and widgets:

From the Home screen, touch and hold the blank screen, or click MENU Key and select 'Wallpaper'. Enter the main menu screen, slide your fingertip left to reveal the widget, select a shortcut to some of your saved information (such as a play list), a widget (a clock) for your Home screen.

(3) Move objects on the Home screen

•To move an icon or other item on the Home screen, you must first touch & hold it to enter move mode. The object will magnify when it's ready to be moved.

Calling and Messaging

Make a Call

Tap 📞 on the menu screen or the home screen. By default, the dialer will display a list of contacts on which calls have been made very often .

Tap ⠿ to view the dialer

Contacts

Go to ⊕ → 🖼

Store, use, and synchronize contact details in your contact list. You can now create contact groups or mark contacts as favorites in your phonebook. Use tabs or swipe through to vi   l   contacts, and favorite contacts list.

Airplane Mode

Some locations may require you to disable all wireless features of your device. Airplane Mode enables you to disable all incoming and outgoing calls, Wi-Fi, and Bluetooth connections.

To activate the airplane mode:

1. Press and hold the Power button and then select **Airplane mode**. Or,

    Drag notification panel down, and then select **AIRPLANE MODE**.

Send Message

1. Tap 📧 on the menu screen or home screen and then tap 📝 to compose a message.
1. Tap ➕ icon to view the types of files that can be attached and select the desired type of multimedia file.
2. Tap to select the composition text box and enter your message body in it.
3. Enter the contact name (if it exists) or enter the phone number. You can also tap the 👤 icon to view and select contact (s) from the contact list.
4. Tap ➤ to send the message.

Multimedia

Camera

Go to ⊕ → 📷

All the pictures you can capture or view on your phone are stored on a memory card, which must be installed in your phone. Before you can use the Camera or view pictures in Pictures, make sure you have a card installed

Gallery

Go to ⊕ → 🖼️

You can view pictures, play videos and share files from the Gallery. Tap an album to open and view its contents.

Music Player

Go to ⊕ → 🔵

Music supports various audio formats, including: MP3, arm, ogg, and wav, etc. The songs are categorized by Artist, Albums and Songs. You can make your favorite playlist by long taping on a song and selecting Add to Playlist.

FM Radio

Go to ⊕ → 📻

You can listen to your favorite FM channels using the inbuilt FM receiver of your phone. Before starting the FM, plug-in the headset as it works as antenna for the FM radio. Use the intuitive buttons and icons on the phone in the radio interface to enjoy the features of your inbuilt FM radio.

Smart remote

Go to ⊞ → 🎴

(1)You can add new remote control

(2)Select device you want to control with your ARemote

(3)Select one new device → search brand →select one brand

(4)How to add the remote:

  a. Test all keys for your device.

  b. If each key work with your device select (Add this remote)

  c. Otherwise test next model.

Settings, Networks

Your phone can connect to various networks and devices, including Internet, Wi-Fi, GPRS, Bluetooth, devices, such as headsets. You can also transfer files to/from your PC through the data cable.

Connect to the Internet

Go to ⊞ → ⚙ → **Data usage→ Cellular** and select the SIM on which data connection is to be enabled.
You may also need to configure the access point name for the data connection to work.
To configure the access point name:
Go to ⊞ → ⚙ → **More →cellular networks → Access Point Names** and select the SIM for which access point name is to be configured. Select the access point name from the list.

☏	By default, the access point name gets configured once you insert the SIM, Or, your network provider sends the access point name settings via SMS. You may need to install these settings. If the access point names are not listed by default, please contact your network provider for the same.

Tethering & Portability

You can use your device as a modem and connect your PC or laptop to the Internet, when required. Start using your SIM data pack on your PC or Laptop now!
Go to ⊞ → ⚙ → **More → Tethering & portable hotspot**

1. Connect your phone with your PC/Laptop via USB cable.

2. Select the **USB tethering** option.

3. Select your phone network as the network connection in your PC/laptop and get access to the Internet.

Bluetooth Tethering

1. Pair your phone with the Bluetooth enabled PC/laptop via Bluetooth pairing option.

2. Select the **Bluetooth tethering** option in your phone.

3. On the paired PC/laptop, select the Bluetooth device (your phone) and choose to connect to the internet.

Wi-Fi Hotspot

1. Turn on the **Wi-Fi hotspot** option in your phone.
2. On the other Wi-Fi enabled PC/laptop/handset, choose your phone as a Wi-Fi network to connect with it.
3. View and configure Wi-Fi hotspot settings by tapping the **Wi-Fi hotspot** option.

⓪	Your mobile operator will charge you based on your GPRS data usage.

Pair With Bluetooth Devices

Go to ⊞ → ⚙ → Bluetooth

1. If Bluetooth is off, turn it on and then tap **Bluetooth**. Your phone scans and displays the Bluetooth devices in range.
2. Tap the ID of the other device in the list to pair with it.
3. You will be prompted to confirm passkey on both devices.
4. Tap **Pair** to confirm the passkey and pair the devices. On successful pairing, your phone connects to the device.

Taking Care of your device

Your device is a product of superior design and craftsmanship and should be handled with care. The following suggestions will help you protect your phone.

- Keep the device dry. Precipitation, humidity, and all types of liquids or moisture can rust the electronic circuits. If your device gets wet, remove the battery, wipe it with a dry cloth and take it to an authorized service center.
- Do not store the device in high or cold temperature. Extreme temperatures can shorten the life of electronic devices and damage batteries.
- Do not use or store the device in dusty, dirty areas. Its moving parts and electronic components can get damaged.
- Do not attempt to open the device other than as instructed in this guide.
- Do not drop, knock, or shake the device. Rough handling can break internal circuit boards and fine mechanics.
- Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the device. Only use a soft, clean, dry cloth to clean the surface of the device.
- Do not store your device near magnetic fields or allow your device to come in contact with magnetic fields for extended period of time.

Battery Recommendations

- Please put the battery in a cool and well-ventilated place out of direct sunlight. We recommend you to charge the battery at room temperature range.
- Batteries have life cycles. After a full charge, if the power reserve of the battery tend to deplete inordinately faster than usual, the battery life is at an end. Replace the battery with a new battery of the same make and specification.
- Do not discard the battery with household trash. Please dispose of used battery according to your local environmental laws and guidelines.

Recycle your Phone

The WEEE logo (shown at the left) appears on the product (battery, handset, and charger) to indicate that this product must not be disposed off or dumped with your other household wastes. You are liable to dispose of all your electronic or electrical waste equipment by relocating over to the specified collection point for recycling of such hazardous waste.

Collection and proper recovery of your electronic waste equipment at the time of disposal will allow us to help preserve the environment. Recycling of the electronic waste equipment will ensure safety of human health and environment. For more information on best practices for disposal of electronic and electrical waste, please visit to our web site:
